○ WHAT ARE THE DIFFERENT FLOORPLAN OPTIONS/SIZES?

We've curated an established portfolio with a variety of plan options. Each floorplan is mindfully designed to make the most of every square foot - maximizing function yet versatile enough to accommodate your unique lifestyle.

○ CAN I MAKE CHANGES TO THE FLOOR PLAN?

If your desires exceed what's offered and you would like to discuss plan modifications and requests for revisions, there is a process we would enjoy exploring with you.

○ WILL THERE BE AVAILABLE INVENTORY HOMES?

We aspire to always have available inventory in the neighborhood. Our ability to do so is subject to the volume of presales and our team's capacity to serve our homeowners well.

○ WHAT SIZE ARE THE HOMESITES?

The homesites are traditionally sized, typical of this type of waterfront setting. Each floor plan is designed to maximize the livability of interior and exterior spaces, featuring front-to-back living, and affording homeowners comfortable outdoor living spaces.

○ CAN I PURCHASE TWO ADJACENT HOMESITES?

Yes, homesites can be purchased and combined.

○ CAN I HAVE A POOL?

While we hope to accommodate pools in the neighborhood, we're still working to ascertain the approvals to do so. If able, pools would be considered as a part of landscape planning process and approved on a per homesite basis.

○ CAN I BUILD ANY PLAN ON ANY HOMESITE?

While most of the plans in our portfolio fit on most of the homesites, we have completed a site study that provides optimal plan placement. Whether it's a particular lot or a particular home plan driving your decision, we are prepared to help you find the ideal place to do so.

○ WILL MY HOME BE COVERED UNDER WARRANTY?

Yes. Each home comes with an industry-standard one year warranty.

Amenities & Features

○ WHAT AMENITIES DOES MOSS LANDING OFFER?

Moss Landing will offer a full array of amenities: waterfront park with community pier, marina slips with lifts, kayak and paddleboard launches, and a future boutique retail setting. Some of the best amenities are those all around, from the water and water adjacent recreational opportunities to the downtown harbor district which features art, dining and retail pleasures all within walking distance.

It is not gated, but it is a private neighborhood.

○ WHAT UTILITY SERVICES ARE AVAILABLE? HIGH SPEED INTERNET? NATURAL GAS?

- A list of utility services is available upon request.
- Natural gas is standard throughout the neighborhood and is used for appliances, fireplaces, and as the main heating source.
- The development team is currently working to secure high speed Internet for the neighborhood.

○ WILL THERE BE SIDEWALKS? STREETLIGHTS? PARKS?

Yes. Creating a safe and active environment where community is fostered is a treasured principle of design for our team. We prioritize the pedestrian at each turn, providing functional outdoor spaces so people can enjoy themselves and engage their neighbors.

Marina

○ DO HOMEOWNERS HAVE ACCESS TO THE MARINA? IS THERE A COST?

Moss Landing features a private marina that includes 48 boat slips ranging in sizes from the standard 24' to a 30' day dock and is designed to accommodate primarily power vessels. The marina enjoys a sheltered waterfront location along the Pamlico River and is comprised of three (3) docks. As a private marina, the slips are available for purchase (not lease) to all homeowners. The marina will be overseen by a dedicated COA, the management fees of which will be covered by the owners of the slips themselves.

○ HOW WILL MY SLIP BE TREATED IF I SELL MY HOME?

Though all purchased slips are independently deeded, they will be tied to the owner of record corresponding to the homeowner's address. In this way, the sale of a home will also constitute the sale of the marina slip as the two are inextricably linked.
